Skills

C++ | JavaScript | NodeJS | React | MongoDB | PostgreSQL | Git | GitHub | Express.js | Redux.js | Docker | HTML | CSS | Sequelize | NextJS | Data Structures and Algorithms | Operating Systems | Open Source Contributions

Projects

E-Commerce Website   **Sept'23**

This is a full stack e-commerce website which I have made for recruitments of software development society of our college using MongoDB Atlas as a database, React.js for the front-end , Node.js framework with Express.js library as a backend and Redux.js for state management of the front-end. Moreover, I have used stripe API for payments.

- Users can register as a normal user or business owner also, allowing business owners to sell products using the website and users to buy products.

- Business Owners can add, delete, update or delete products.
- Admin can add, delete, update or delete users and products also in the admin panel.

Work Experience

Hacktoberfest 2023 | Open Source Contributor   **Oct'23 - Oct'23**
- *Contributed in various Open Source Projects.*
- *Got 5 valuable pull requests with quality code.*
